Terrible Explosion.

RICHMOND, Va., March 22.—Later intelligence from the boiler explosion at Hull's sawmill greatly increases the extent of the casualties. When the boiler, which was 25 horse-power, exploded a number of persons were at work in the mill, and the results are frightful. Five persons were killed and seven others, including the engineer, injured, two fatally. Thorpe, a white man, was killed and leaves a wife and 8 children. The explosion was supposed to be caused by carelessness in allowing the boiler to get empty and then turning cold water into the heated boiler.

WASHINGTON CITY.

The Liberian Scheme Denounced.

WASHINGTON, March 22.—Colored men interested in a colony of their race in the west, last night took measures to promote that object, and denounced the Liberian scheme of emigration in progress in the southern states.

Freedman's Bank Affairs.

The U. S. treasurer is paying the second dividend of ten per cent to depositors in the late Freedman's Bank.

Committee Work.

WASHINGTON, March 22.—The senate finance committee to-day heard Commissioner Raum of the internal revenue bureau, in advocacy of a favorable report upon house joint resolution to extend the time for the payment of taxes on distilled spirits in bond.

The senate committee on privileges and elections to-day received a report from Wadleigh, who was directed to report whether the claim of D. C. Corbin for a seat in the senate can properly be considered by a committee, or whether the vote of the senate admitting M. C. Butler to a seat has precluded further action. Wadleigh reported that the case is still before the committee upon its merits. The committee will consider the case next meeting.

Congressional Bondsmen.

WASHINGTON, March 22.—Before the house postoffice committee, W. W. Wiltshire, practicing lawyer of Little Rock, representative in the last congress from Arkansas, testified that last January the postmaster of Little Rock had asked him to sign as surety a batch of bids for carrying mails on routes in Arkansas and the Indian territory. Hadley informed him these bids had been sent him from Washington. After a delay of ten days or two weeks Wiltshire went to Hadley's office and signed his name as surety to a batch of fifty more bids. These bids were in blank with the exception of the number and terminal points of the routes and amount of penalty. There was no other name to them as surety when he signed them, but he understood they were afterwards signed by the other surety, G. W. McDiarmid, of Little Rock. Wiltshire could not testify as to whether John M. Peck's signature was genuine or not. Wiltshire was examined closely as to the value of his real estate, which he placed at $40,000.

Important Appropriation Bill.

WASHINGTON, March 22.—Legislative, executive and judicial appropriation bill, as prepared by the sub-committee consisting of Atkins, Durham and Foster, was to day reported to the full committee. The bill covers expenditures of $16,000,000 and reduces expenditures of last year some $600,000. The reduction is effected mainly by rearranging the clerical force of the various branches of government so as to provide for a smaller number of high salaried clerks and a greater number of those receiving low salaries. Officers whose salaries are fixed by law are not affected by the reduction. It is understood the bill proposes to abolish the offices of fourth and fifth auditor of the treasury, their duties to be performed by the other auditors.

Pensions to Wounded Soldiers.

The house committee on valid pensions today agreed to report a bill allowing pensions of seventy-two dollars a month to soldiers having lost either or both eyes, both hands or both feet, and $24 per month to those having lost one eye, one hand or one foot.

Working on the Tariff Bill.

The ways and means committee changed several classes of wool in the new tariff bill and fixed the rate on all wools from whatever country imported at 35 per cent, *ad valorem*.

Mail Contracts.

WASHINGTON, March 22.—The postoffice department to-day made awards of the steamboat mail service for the Pacific coast, giving the contract in each case to the lowest bidder. The full list of the lowest bidders was telegraphed when the bids were opened. The contracts were awarded for a term of three and a half years from the 1st day of next July. The service on the Sitka route is to commence at Port Townsend.

Against Abolition of Trade Dollars.

The resolutions of the San Francisco chamber of commerce, protesting against the abolition of the trade dollar, are received and were presented by member of the California delegation. They were however forestalled by Davis' argument, and the quickly consequent action of the house committee to day in reporting the bill which provides for the continuance of the coinage of trade dollars, with the limitation suggested by Davis, limiting the maximum amount to $9,000,000 per annum, and expressly restricting their use to the purposes of export. The bill does not prescribe what safeguard shall be employed to prevent domestic circulation of trade dollars, but simply empowers the secretary of the treasury to make such regulations as he may deem necessary.

A Railroad Commissioner Proposed.

WASHINGTON, March 22.—The sub committee on Pacific railroads recommend the passage of a bill providing for the appointment of a Pacific railroad commissioner to establish rules and regulations, subject to the approval of the secretary of the interior, to govern the operation and use of the several Pacific railroads and branches, and to oversee the observance thereof, so as to afford and secure to the public and the government all advantages of communication, travel and transportation as stipulated and defined in the acts of congress relating to the operation and use of said roads as one connected and continuous line, and the mutual rights and duties of said companies, until the same be found to be inconsistent with the requirements of said acts of congress by final decree of the courts of the United States. The commissioner is to be appointed by the president and confirmed by the senate, and is to give a bond of $500,000, payable to the United States for the use of any and all parties that may be agrieved, and conditioned upon the faithful performance of his duties.

The Postal Bill.

CHICAGO, March 22—The *Tribune's* Washington special says: The house postal committee to-day heard protests to the section prohibiting any second class matter from being carried on the post routes outside the mails. The committee will almost certainly strike out this feature.

Are We So Soon Forgotten?

[From the Boston Traveller.]

The Springfield Republican remarks that "Ben Wade enjoys the unique distinction in our political history of being the only man who ever came within one vote of being president of the United States." And has Sammy Tilden been forgotten so quickly? Cronin's vote was all that he lacked of being president.

So long as the legs of the small boy do not extend higher than his breathing apparatus it will be impossible to get him into a pair of rubber boots so far that he will not straightway go out and stand in a puddle where the water will just run over the tops of the same.

CONGRESSIONAL.

Senate.

WASHINGTON, March 22.

The vice president presented a communication from the secretary of war enclosing a letter from the chief of engineers recommending an appropriation for continuing the examinations in connection with the construction of jetties at the south pass of the Mississippi river; referred.

Also a communication from the secretary of war enclosing a letter from the chief of ordnance of the United States, stating that the clerical force allowed his office was inadequate to keep up the work, and suggesting six additional clerks be allowed; referred.

Dorsey introduced a bill to abolish the board of police commissioners of the District of Columbia; referred.

Eaton submitted a preamble and resolution, declaring it was alleged Benjamin Noyes, a citizen of the United States and of Connecticut, on the 11th of March, 1878, in Washington, was arrested and imprisoned without due process of law, and in violation of the rights of a citizen; that his kidnappers took from his person papers and refused him privilege of consulting with friends or counsel, therefore.

Resolved, That the judiciary committee be directed to inquire into the subject and report thereon; the committee to have power to send for persons, papers, etc. Consideration postponed until Monday.

Hereford called up a resolution submitted by him yesterday, instructing the committee on finance to report within one week the house bill to repeal the specie resumption act, together with their action thereon, if any shall have been had.

Bayard suggested the resolution be laid aside until next week.

Hereford consented that further consideration be postponed until Tuesday next.

At the expiration of the morning hour the Pacific railroad sinking fund bill was resumed, and McDonald, member of the judiciary committee, spoke in favor of the bill reported by that committee. He reviewed at length the Pacific railroad acts of 1862 and 1864, the bonds and lands received by these companies, etc., and argued that the companies had not provided for the payment of the debts due the government. He referred to a decision of the supreme court of the United States that the companies need not pay interest until maturity of the debt, and said the United States every year would pay out for interest on account of the Union Pacific railroad, a million dollars above the amount received back from the half transportation account and five per cent fund so that the government would pay out $22,000,000 by the time the debt matured. These amounts added to the present arrears of the company would make a total of $79,031,012. On account of the Central Pacific Railroad Company the government would pay out for interest every year $1,171,840, which in twenty-two years before the maturity of the debt will amount to $25,769,480, which, added to the present arrears of the company, will make a total indebtedness due the government of $95,703,913. He spoke of the power of congress to make provision for the payment of this money, which had only been loaned to the companies. It was not money given to them. Any measure to compel the companies to pay the money would be just, which did no more than to withhold dividends from stockholders to pay a loan. Stockholders had no right to dividends while a loan was unprovided for. The bill reported by judiciary committee, however, was far inside of this proposition and would still leave dividends after providing for the payment of the loan. He commented on the bill reported by the committee on railroads, and said under it the whole amount of credits principal and interest on the $22,000,000 to be paid into the sinking fund by the Union Pacific during the 22 years before maturity of the debt would be $45,858,679. The Central Pacific road would receive equal credits, making a total of $91,717,358 to the credit of the two companies at the maturity of the debt, upon which they will have paid into the treasury $44,000,000. He had no belief at all that this proposition would meet with any great favor in the senate. Congress had full power to pass the bill reported by the judiciary committee.

Merrimon then took the floor with the understanding that he would speak upon the sinking fund bill Monday next. It was then laid aside.

Senate resumed consideration of house bill authorizing the secretary of the treasury to employ temporary clerks, also making appropriations for detecting trespass on public lands and for bringing into market public lands in certain states, and for other purposes, the pending question being the amendment of Beck to that of the committee on appropriations.

Beck, in explanation of his amendment, said the object was to apply it to unsurveyed lands in territories, but not to effect any organized state or surveyed lands. The committee on appropriations had no power to place such amendment in the appropriation bill. He must protest against the committee on appropriations being charged with hostility to the settler, because they did not feel authorized to change the laws relating to public lands. He condemned the employment of spies, and said the government should not use them except in cases of great exigency. It was agreed to.

The question then being on the amendment of the committee on appropriations, it was agreed to, yeas 42, nays 4.

After debate the amendment was adopted by 31 to 19.

Eustis moved to strike out of the second section of the bill the words "trespassers on public lands" in the clause reading, "for actual expenses of clerks detailed to investigate fraudulent land entries, trespasses on public lands and cases of official misconduct, advertising, etc., $2,000.

A debate ensued.

Finally Windom said the senate had been four days discussing this little proposition. He appealed to the senate to get out of the woods by voting on this bill before adjournment to-night. He moved to table Eustis' amendment; agreed to without roll call.

After executive session the senate adjourned till Monday.

House.

Wood of Pennsylvania introduced a bill supplementary to the homestead laws of the United States, providing that persons *bona fide* intending to make actual entry and settlement under the homestead acts shall receive through the secretary of the interior free transportation for themselves, farming utensils and personal effects to their new homes and also to seeds for two years cultivation.

After the morning hour Atkins introduced a bill to provide for the more economical survey of public lands; referred.

Also a resolution directing the committee on public lands to inquire into the present system of constructing public buildings, and whether any changes can be made in such system to promote the efficiency of the public service; referred.

House then went into committee of the whole, Mills in the chair, on the private calendar.

The committee disposed of a large number of bills and then rose and reported them to the house and they were passed. They were principally pension bills to the number of about forty, among them are bills to pay the widow of Gen. Custer $3,000 for money paid by her father's estate to the government on a forfeited bond.

A bill was also passed pensioning the widows and minor children of Capt. Guthrie and the surfmen who were drowned in rendering assistance to the crew of the wrecked *Huron*.

Stephens, chairman of the committee on coinage, reported a bill to amend the laws on the subject of coinage, to perfect the double metallic standard, to provide for issuing gold and silver bullion certificates, and to retire certain silver coins now in use; ordered printed and recommitted.

The first section provides that coinage of gold and silver bullion shall be on equal footing and on the same terms and conditions. The actual cost of coinage of each shall be paid by the owner.

The second section requires the secretary of the treasury to receive on deposit silver bullion when offered, and to have it assayed and put in suitable bars properly stamped and issue certificates therefore, just as certificates are now issued for gold bullion, and gold and silver coin. Such certificates are to indicate and represent the value of the bullion so deposited in standard silver dollars of 412½ grains, and are to have the same force and effect as other coin certificates and to be alike receivable in payment of all public dues, and the bullion so deposited is to be retained in the treasury for the payment of certificates, the depositor to pay the expense of assaying and stamping the bullion and of its coinage. The secretary of the treasury is to have the right of converting such bullion into standard silver dollars and to take up such certificates in coin or in bullion at his option.

The third section prohibits further coinage of twenty cent, five cent and three cent silver pieces.

The fourth section makes fractional or subsidiary silver coins a legal tender to the amount of $20, and authorizes its redemption at the treasury in legal tender money when presented in sums of $100 or over.

The fifth section authorizes the continuance of coinage of trade dollars exclusively for the foreign trade, but limits the amount to $750,000.

The bill granting an increase of pension of $30 to the widow of Major Craig, chief of ordnance, was amended in committee of the whole, by fixing it at $50. This amendment gave rise to a discussion in the house, and was finally adopted and passed.

On motion of Crittenden, senate bill to authorize the Worthington & Sioux Falls Railroad Co. to extend its road into the territory of Dakota to the village of Sioux Falls, was passed.

Hunton introduced a bill to reorganize the system of superintendence of railways; referred.

House then adjourned till Monday.

A Funny Sensation.

[Washington Telegram to St. Louis Republican.]

It is known that the New York *Sun* has been spending a great deal of money on detective talent for the last six months in an effort to gather proofs of the complicity of the Republican visiting statesmen to New Orleans in the count of the votes of Louisiana. It is now understood that these proofs are soon to be made public.

London now knows the value of its acquisition. The Egyptian obelisk, with the ship containing it, has been fixed upon by a salvage court as worth £25,000.

THE EASTERN QUESTION.

France's Position as to the Congress.

PARIS, March 22.—Questions which France demanded should be excluded from the congress were those relating to holy places, as introducing needless complication, and touching Syria, because Syria might have been offered her as compensation for English occupation of Egypt, and because she considers that the two fold question of Syria and Egypt might impair the good understanding with England.

England's Policy Endorsed.

Men and journals of all parties commend England's attitude in insisting on the right of the congress to discuss the whole treaty of San Stefano.

Villages Sacked.

A dispatch from Volo says the villages of Olympus, Repsani, Caria and Litochor have been sacked and burned by the Turks, and the women, children and old men were massacred, except some who escaped to the mountains which are still covered with snow. Unless a ship is sent to relieve them they will probably perish from cold and hunger. The insurrection progresses steadily.

Welcome Waits Him.

PERA, March 22.—Preparations are making to give a warm reception to Ghazi Osman, who is expected to arrive here Monday.

England's Demands not Reasonable.

ST. PETERSBURG, March 22.—The *Agence Russe* says England has not yet replied in regard to the congress. She still insists upon the demand that all the conditions of peace be submitted, notwithstanding the text of the treaty has been communicated to the cabinet, and Russia has agreed to complete the freedom of the discussion at the congress. The chances of the congress meeting are diminished.

A Bad Police System.

CONSTANTINOPLE, March 22.—The police organized in Adrianople committed various excesses and pillaged last week houses containing property of Turks and Frenchmen which had been confided to the care of the French consulate.

Negotiations Ended.

ATHENS, March 22.—Negotiations between Hobart Pasha and the Greek insurgents have ended, Hobart refusing to recognize the provisional government of Thessaly.

Startling Roumanian Rumor.

ST. PETERSBURG, March 22.—There is an unconfirmed rumor in circulation that a revolution has broken out in Roumania and that Prince Charles has fled.

A Proposed New Premier.

VIENNA, March 22.—It is possible Count Potocki may become the premier of the new Austrian ministry. The reports that he would replace Count Andrassy as chancellor of the Empire are untrue. The position of the latter is considered likely to be strengthened by the leaning which he has lately shown toward the pro-Russian party.

Sent Towards Turkey.

LONDON, March 23.—The ironclad *Invincible* is ordered commissioned Monday for the Mediterranean.

A Full Vote or Nothing.

LONDON, March 22.—Dispatches from Athens all admit that Greece should decline to take part in the congress, if only offered a consultative voice.

Austrians in Servia.

A Belgrade special says all the Austrians in Servia liable to military service have been ordered to return home.

Going Back on her Deliverer.

A telegram from Vienna received in Paris states that Roumania has refused to receive independence at the hands of Russia or permit the passage of Russian troops through her territory during the occupation of Bulgaria.

Russia Makes a Demand.

A special from St. Petersburg says rumors are in circulation that Russia has demanded that the British fleet quit the sea of Marmora immediately. The correspondent has reason to believe the reports although exaggerated are not entirely unfounded, and that Russia is making or is about to make representations in regard to the British fleet.

LONDON, March 22.—A special from Berlin says a Russian naval attache here who is a leading authority on torpedoes, has suddenly been ordered home.

Secret Russo-Turkish Agreement.

LONDON, March 22.—A Paris correspondent hears that Russia has forced Turkey to acquiesce in a secret agreement, according to which Russia will assist Turkey against the Greco-English combination, or against the entry of the British fleet to the Bosporus or Dardanelles, largely diminish the indemnity, and guaranteeing the integrity of remaining Turkish territory, receiving in return a directing power over the revenues of the porte.

Russia Irritated.

Minister Layard's opposition to the embarkation of Russian troops at Buyukdere has caused great irritation. An inspired article in the *Journal de St. Petersburg* attracts much attention. It points to the continuance of the fleet in the sea of Marmora in defiance of international law, and asks if it is not time to ask England what she really wants. Europe should call England before her judgment seat and summon her to re-enter the sphere of international law by quitting the straits, and formally engaging not to return. Semi official hints are given that if England does not want to attend congress it will meet without her.

In connection with the foregoing intelligence it should be stated that rumors were circulating in the lobbies of parliament last night that the tone in English official circles is decidedly warlike.

War Inevitable.

BERLIN, March 22.—The *North German Gazette* says it is evident that Russia regards war with England as inevitable, and knows she was never better able to wage it than now.

ATLANTIC CABLE.

Papal Notes.

LONDON, March 22.—Dispatches from Rome say the consistory will be held on the 28th inst. No encyclical will be issued, the pope not wishing to commit himself to any definite policy in the present complication of European affairs. His holiness will only deliver an allocution, avoiding all political allusions.

The head of the Jesuits recently proposed to return to Rome, but the pope received the proposition very coldly. The Jesuits are, therefore, opposing the pope's general policy.

The Great Walking Match.

LONDON, March 22.—At 5 o'clock this afternoon O'Leary had walked 429 miles; Vaughan, 416, and Brown, 391. Vaughan looks in better condition than O'Leary, who was trembling in the knees.

LATER.—The pedestrian contest has now become virtually a match between O'Leary and Vaughan, all other competitors being hopelessly behind. Brown appears certain of a third place, but he is exceedingly sleepy. The two leaders maintain a remarkably steady average of about four miles an hour. O'Leary walks in a track containing eight laps to the mile, while Vaughan's track contains seven. O'Leary walks exclusively; Vaughan trots occasionally, and by this means has twice managed to slightly reduce O'Leary's lead. This advantage was, however, both times regained. Thus at 7 o'clock in the evening the score stood: O'Leary 438, Vaughan 426, but by 9 o'clock O'Leary had walked 446 and Vaughan 433 miles. At midnight O'Leary and Vaughan were both resting. O'Leary had scored 457, Vaughan 441, and Brown 415. Vaughan looks fresher than O'Leary, but his feet are very sore and swathed in cotton wool. He also suffers somewhat in the knee, but less than O'Leary. Victory seems now almost assured to O'Leary.

Utterly Obscure Men.

ROME, March 22.—Excepting Signor Cairoli, president of the council, Signor Zardelli the minister of the interior and Signor Desanctis, minister of public instruction, all the new ministers are utterly obscure men, even in Italy.

Communist Editor Sentenced.

PARIS, March 23.—The responsible editor of the *Journal La Commune* was sentenced to a year's imprisonment and a fine of $5,000 francs. The trial was by jury.

CENTRAL AMERICA.

Germano-Nicaraguan Troubles.

PANAMA, March 13.—A formidable expedition against Nicaragua to enforce the claims of Germany in the case of Consul Eisenstuck leaves this port and Colon this evening. The *Medusa*, on the Atlantic side, is a wooden corvette, carrying 9 heavy guns, and is intended to blockade Greytown, or rather to attempt landing a fleet to operate against San Juan Del Sur and Corinto. The fleet consists of three powerful vessels. The *Elizabeth*, the flagship, carries 20 guns and nearly 400 men; the *Ariadne* carries 8 guns; the *Leipsig*, a formidable iron corvette, 12 guns. The German minister of Central America, accompanies the expedition. Although diplomacy has hitherto failed, the presence of the fleet will be sufficient to cause the Nicaraguan government to come to terms when his services may be required.

CHINA.

The Great Famine in China.

SAN FRANCISCO, March 22.—The Pacific Mail steamer *Alaska* arrived to-day from China and Japan. The news from China is to the effect that the famine which has been devastating the northern provinces of the empire continues with increasing severity. The resources of the government for the relief of sufferers are exhausted, and it seems probable the whole district, containing a million of people, will be depopulated.

AN UNDELIVERED SPEECH.

THE LONG-DRAWN HOWL OF MR. SLEMMONS, OF ARKANSAS, ON THE VETO—ELIJAH POGRAM LEFT OUT IN THE COLD.

Each day's issue of the *Congressional Record* comes out laden down with wonderful speeches by members upon the subject of the veto message. Slemmons, of Arkansas, has rushed into the breach with the following wonderful passage:

"Sir, the time has come, the issue is joined, and it only remains for the representatives of the people to rise from their kneeling posture at the feet of power and throttle the ruler who dares in one short year the second time to strangle the popular will, and teach him that the sovereign power to direct him remains with the free people of the country instead of the moneyed aristocracy of Europe. Sir, the footprints of a foreign dictator are all along the path this veto has traveled. No traces of the sons of toil who clear away the thorns and thistles interposed in the pathway of the first erring ones appear. This very hour the ocean cables are livid with lightning flying through the ocean caves from continental Europe, bearing congratulations to the money power behind the executive, and the other statesman of Princess Pinkerton notoriety; upon their heroism in upholding the national honor, and how faithfully the instructions of our foreign taskmasters have been obeyed!" He closes with the following inflammatory paragraph: "Sir, the wrongs against which the American people struggle to-day, inflicted by merciless tax gatherers and our remorseless taskmasters, are greater than those which prompted the maddened population of Massachusetts to hurl to the tidal wave of Boston harbor the English cargo. It will be pleasing for them in the future, when those who have so long plundered the people are damned, to read the story of their crimes by the red glare of hell, and to remember that they once had a good time."

A Typical Southern Job.

[From the New York Times, March 9.]

The inconvenience of having in congress an ex-rebel ex-postmaster general was severely felt by the Democrats in the house yesterday. During the debate on the bill to pay postmasters and mail contractors in the southern states the amounts due them at the outbreak of the rebellion, a week or two since, Mr. Reagan, who was the confederate postmaster general, made a touching appeal in behalf of those long-injured citizens of our common country. Among other things, he said that these postmasters and contractors were directed by proclamation from the confederate government "to settle their accounts with the government of the United States up to June 1, 1861, and to pay over to the United States the money in their possession, and to return to the United States the postage stamps of which they were possessed up to the date when the confederate government took possession of the service,"—which was May 31, 1861. Unhappily for Mr. Reagan's veracity, as well as for the prospects of the pending bill, there was produced in the house, yesterday, series of proclamations and reports, some of which were signed by Mr. Reagan himself, showing that the confederate government had ordered the postmasters to retain the moneys due the United States, and that Mr. Reagan had reported $600,000 paid by the confederate government (probably from this stolen money), to the same men who are now imploring congress for relief. The romancing ex-rebel ex-postmaster general managed to say that he had "forgotten all about it." But his memory was in good order about two weeks since, when he was advocating this typical southern job.

To be Paid for the Service.

[From the Helena Herald, March 1.]

Last summer, when General Gibbon called for ambulance vehicles under escort to bring supplies and remove the wounded from the Big Hole battle field, nearly 40 vehicles started in a few hours under guard of about 100 men, and brought the wounded to the hospital here. We believe every spring wagon in Deer Lodge valley and Butte was started in from one to six hours after the call was made, and in no instance was any demand made for payment or the question of pay made then or thereafter. The service, however, fell within the regulation of the war department. General Gibbon desired remuneration should be made for it, the proper statements and vouchers were made up and certified, and within the past week each person sending team, wagon and driver has received payment from Lieutenant Jacobs, post quartermaster, for the time so engaged. On behalf of the persons performing this service, we desire to thank General Gibbon and Lieutenant Jacobs for their considerate and prompt action in this matter. The call came in the midst of busy harvest; at some places all were absent from their homes, and only a brief note left in their cabins notified the farmers of the call upon them, yet they left instantly on receiving it, many in the night with tired teams, and would have as cheerfully and promptly responded had much more been asked of them. Their promptness has been reciprocated by the officers, and so each did their duty.

Tilden and the Returning Board Prosecutions.

[N. Y. Corr. Phila. Ledger.]

The report having been revived that Tilden is the real inspiration of the proceedings against the returning board at New Orleans, there is pretty good authority for saying that it is wholly without foundation. Further, that Mr Tilden, so far from being on intimate terms with the Democratic leaders down there, has studiously kept clear of them from the moment that he was convinced that they were "men as little to be trusted by the Democracy as by the Republicans," and that all their plots, counterplots and maneuvring, from the day of election down to the final count, had but one object, the promotion of their own selfish interests without regard to anything else. He still thinks he was elected president, but he has no respect for professed friends who sacrificed him for their own ends. These are not his exact words, but they are understood to be a correct expression of his sentiments.

PACIFIC COAST NEWS.

CALIFORNIA.

Kearney and his Pals on the Rampage.

SAN FRANCISCO, March 21—Midnight.—The workingmen held an open air meeting at the corner of Bush and Dupont streets this evening, to protest against the Spring Valley steal. Kearney made a speech reviewing the history of the company. He then paid his respects to Senator Bones, who, he said, was a silly old fool, not worth hanging. He would leave him to the tender mercies of the Alameda workingmen and intimated that some morning the senator might wake up and find himself standing on nothing. He stigmatized the legislature as a band of thieves. Other speakers followed in the same strain and hinted that as there is at present no court to meet the case of the legislators who are false to their constituents that the assistance of Judge Lynch might be invoked to good effect.

Reported Suspension.

SAN FRANCISCO, March 22.—It is announced that R. F. Kent, of the Pacific Stock Board, has temporarily suspended.

Chance for a Row.

SAN FRANCISCO, March 22.—Charley Duane has issued another call for a meeting on the water question, to be held at Horticultural hall to-morrow afternoon at 2 o'clock, promising to organize the meeting himself. The chief of police and as many officers as can be spared are invited, and there is a reasonable probability that they may find occupation as well as edification there.

More Mongolians.

The steamer *Alaska*, which arrived to-day, brought 213 Chinese, an increase over recent arrivals.

Suicide.

A French woman named Mrs. Jane Delpodia, about 45 years of age, took strychnine with suicidal intent yesterday afternoon, about 5 o'clock, and died from the effects this afternoon. For some time she had given away to fits of despondency, when she would declare she would commit suicide.

The Chinese Insurrection.

STOCKTON, March 22.—Sheriff Cunningham, with his deputies and Constable Kohlberg, returned from Union island about midnight with 26 Chinese in custody. Fifteen are charged with assault to commit murder, and ten engaging in riot. At last reports everything was quiet at the island. Kohlberg has another warrant for the arrest of ten more ringleaders.

Drowning.

An Englishman named John Muras, in the employ of M. C. Fisher, was accidentally drowned in Middle river.

The Kearneyites on Bones and Spring Valley.

SAN FRANCISCO, March 22.—Kearney's cohorts held a meeting this evening at the corner of Bush and Dupont to consider the cases of Spring Valley and Senator Bones. Kearney and Wellock were the speakers of the evening, and were pronounced in their opposition to the schemes of the Water Co. With regard to Senator Bones, resolutions were adopted to the effect that it was the province of the working men of Alameda county to fully investigate his course in the senate, and if he failed to exculpate himself, to demand his resignation; that if was first necessary to determine whether Bones was idiotic, insane or corrupt; that the investigation should be conducted openly, and that the workingmen of San Francisco appoint a committee of three to assist the Alameda workingmen in conducting the inquiry. J. R. Batchelder, J. P. Dunn and John Linehan were appointed such committee.

Kearney then went on to say that Bones must not be assassinated, but if he refused to resign he must be hung in public on a day appointed. This was an uprising of people, and if the government meant to protect thieves he wanted it to show its hands. The crowd received the proposition to hang Bones with cheers, and cries of "hang him," one voice crying "I will be hangman." The remarks of speakers during the evening were at times highly incendiary. Finally Capt. Short requested Kearney to adjourn the meeting on account of the blocking up of the street. Kearney advised his hearers not to attend Duane's meeting to morrow at Horticultural Hall. If Duane wanted to hire a hall he had a right to and could speak to empty benches.

The Greenback party of Linn county claims to have over 300 voters.

Joseph Cunningham, almost 84 years of age, died in McMinnville on the 14th. He came to Oregon in 1845.

A correspondent at Albany suggests Geo. H. Himes, of Portland, for state printer. As a printer, Himes is certainly "number one."

Among the names proposed for state treasurer on the Republican ticket is Hon. J. H. Moores, of Salem. It would be a very fit nomination.

Clark, Davis & Co., of Albany, have taken a contract to make 800,000 brick at the Dalles. They will be used for construction of five large buildings there.

They have bored about 60 feet deeper in the Henryville shaft, at Coos bay, and have gone through another strata of coal. The entire depth is about 515 feet.

Yamhill *Reporter*: Peg another for Mitchell! He has introduced a bill authorizing the construction of a bridge across the Willamette at Portland. There is one desideratum connected with it, however; he makes no provision for the P. D. & S. L. R. R. Co. in connection with the bridge project.

Says the Jacksonville *Sentinel*: "It is clearly our opinion that all currency in circulation represents a taxable value, and we advise our county assessor not to be misled by the fine spun theries that point to any other conclusion." That opinion, is so far as it relates to greenbacks, will hardly stand against acts of congress and decisions of the supreme court of the United States.

C. W. Hughes and wife of Forest Grove have been troubled with family jars and finally separated. Mrs. Hughes was living with her sister, Mrs. T. Johnson, and Mr. Hughes was boarding at L. C. Walker's place, near by. Last Friday Mrs. H. left her child, a little girl about 18 months old, with her sister and went down into town, and as she went she saw her husband going bare headed to the house, but as he had often visited the child she suspected nothing and went on her way. Mr. Hughes went into the house and picked up the child and ran away with it in his arms and got aboard a hack and started off for Yamhill county, and has not been seen in the Grove since.

Dollars and Collateral.

[From the Indianapolis News.]

Those whom the silver bill was to lift from poverty to wealth, as soon as they attempt to realize will find themselves in the condition of the country merchant who came to town to "raise the fair and gentle wind." In reply to a friendly inquiry he said: "Yes, the banks had money enough, but they wanted collaterals, and I couldn't find any in the whole town." The silverites will soon be applying to congress to furnish them with collaterals wherewith they may get their hands on the daddies' dollar.

SATURDAY MORNING, MARCH 23, 1878.

RAMPANT "REFORMERS."

Dennis Kearney is the embodiment of a statesmanship whose tricks are daily becoming more fantastic. He and his rabble rout manage to keep the principal towns of California in a pretty constant uproar. There is no characterizing their methods without instantly recalling the political philosophy of Jack Cade. It is all summed up in the wisdom therein contained and presented. It is a travesty of definitions to call the Kearney cantankerousness a labor movement. A rebellion against labor is precisely what it is. Below the whole movement there is a vague desire, a half formed purpose, to live at the expense of the industry and accumulations of others. It is founded on a conception of hostility to the idea of property. It is the doctrine that present laws of property are unjust, and that the state ought to take care of its people. From such agitation rant and noise are naturally to be expected. In a cause so directed no absurdity can be thought extreme. Its logic drives irresistibly to lower and lower depths. They carried certain local elections, boasted of their achievement and were wild with excitement. But the man whom they sent as their champion to the legislature was obliged to act in that body as a rational being, and they now actually raise a ferocious outcry for his blood. Among them *there* is contempt of all conduct within moderation. The talk about Senator Bones exhibits the ferocity of a class who would substitute brutal domination for the reign of justice and the government of law, and would use assassination as one of the instruments to enforce it. These would be hard words to utter were they not strictly in accord with truth as a description of the proceedings in California which are furnished by the daily telegraphic report. It was supposed months ago that this ebullition would soon subside. But on the contrary it becomes more violent. Actual workingmen, who are guided by honest purposes, cannot follow leaders like these. They are interested in the protection of industry and the preservation of order, and must abandon in disgust a movement so led and directed. Organizations of workingmen are proper as any other, and may be beneficial; but only the worst of results can follow counsels directed by ignorance, demagogy and violence. None need be told that no real reforms of any conceivable kind can be effected in that way.

POSTAL SAVINGS BANKS.

The amended postal savings bank bill authorizes deposits at all money order offices of sums of twenty-five cents and upward. It provides for book accounts and pass-books, and when deposits reach fifty dollars a postal money order on the treasury may issue on the amount, to be exchangeable for bonds bearing interest. No person is to be allowed more than twenty dollars in one day. This special issue of bonds is to be called postal savings bonds, which are to draw interest at the rate of 3.65 per annum. These bonds are to be exchangeable at par for four per cents, and also for United States notes, with interest computed to the day of presentation. The postal money orders are also to be redeemable in currency at designated money order offices. The names of depositors are to be confidential. Money received is to be applied to the redemption of the bonds. Provision is made for the redemption of bonds, in a special issue, of United States notes, to be legal tender for all debts and dues except duties on imports and the public debt, to the amount of 10 per cent. of the actual amount of postal money orders and postal savings bonds at any time outstanding. It provides that the entire amount of the special issue shall not exceed $50,000,000. The special issue is to be used entirely for the redemption of postal savings bonds. These additional particulars will render more clear the statements on this subject heretofore telegraphed.

ITEMS FROM WASHINGTON.

On the 8th inst., as we learn from a special correspondent, Representative Williams was before the house committee of commerce, and by their courtesy made an argument for river and harbor improvements for Oregon. Subsequently the committee agreed to allow an appropriation sufficient to take the preliminary steps towards establishing a harbor of refuge either at Port Orford or Cape Foulweather. It was also decided to allow about $8,000 to improve the mouth of the Coquille river, $20,000 for the lower Willamette and Columbia rivers, $75,000 for the locks at the Cascades, and $20,000 for Snake river. As to the claim for legislation to protect salmon fisheries, the committee insist that this is not within the power of congress, and say that the state legislature should be looked to for such protection.

The same letter says "It is apparent to every observer at Washington that the Union and Central Pacific companies are doing all they can to prevent extension of time for the Northern Pacific. No one can be sure that any bill will pass, and the differences needlessly raised make the result still more doubtful. There has been, this writer says, the most persistent and stubborn opposition to the Northern Pacific bill in any shape, though always under pretence of favoring the extension asked for by the company. The people of Oregon ought to know the whole truth.

H. W. S.

COLUMBIA RIVER.

A Seattle paper, the *Tribune*, seems to have resolved that the Columbia river shall be closed to commerce for the future. That paper considers the great river unfit even for the commerce bordering upon its banks; and it insists that the railroad shall be extended from Kalama to Portland, to furnish egress for the Willamette valley through Puget Sound. It has always been a dream at Puget Sound that the commerce of Oregon, forsaking the Columbia river, would find its outlet there. But it is fallacious. We should be glad to see the railroad built from Portland to Kalama. Yet if it were built it would not change the present situation. The Columbia river would still be a cheaper channel for the commerce of Oregon than the route through Puget Sound. It never will be a profitable thing to send the products of Oregon by rail across to the Sound, there to be shipped for market. For shipments can always be made at less cost direct from the Columbia river. They who are trying to persuade themselves that it is becoming difficult for vessels to pass in and out of the Columbia river are cherishing an error. No doubt in the future Puget Sound will become a great depot of shipping; but the Columbia river as a channel of commerce will not be superseded.

Henry Stevens of London, one of the most accomplished of living bibliographers, has been turning his attention to the history of printing as illustrated by the printed Bible, from 1450 to 1877. His introduction contains a learned and ingenious treatise on the great Coverdale Bible, the first complete Bible printed in the English tongue. This writer has succeeded in establishing a strong probability that this Bible was printed at Antwerp in 1585, and not at Zurich, as has generally been supposed. Mr. Stevens has been endeavoring to compile a complete list of printed Bibles from the earliest period to the present time. This work has continued through a quarter of a century, and the very remarkable result is a table containing some 30,000 titles.

Referring to the effort to get certain southern claims paid, the Mobile *Register* says "the most unfortunate incident of the late presidential election was the letter written by Mr. Tilden a short time before the election, saying he would veto any bill proposed to pay southern war claims."

The tone of the speech by Senator McDonald, of Indiana, on Pacific Railroad debts will meet the approval of the country. Instead of pleading for the companies he pleads for the rights of the government.

The *Christian Union* suggests as an addition to the inscription, "In God we Trust," upon the new silver dollar, the text, "Forgive us our Debts."

Political Forecast.

[From the New York Times, March 6.]

Elections were held throughout the state yesterday, for county and municipal officers, and the results so far as received are not a little instructive. Where the Democrats failed to combine with the "Working Men's" party they were left in a minority, even in their accustomed strongholds. It needs but little political sagacity to predict the near approach of the time when the Democrats will surrender to the socialists, and the party of Jefferson will carry out to their logical conclusions the Jacobin theories which Jefferson partially espoused.

Conkling may not be a bigger man than Hayes, but every night he lays him down to rest it is with the sweet consciousness that his friend Cornell and his champion Arthur are still in the New York custom-house. If he is not victor, whence these spoils?

OBITUARY.

DIXON.—Near Roseburg, Oregon, March 11, 1878, after a short illness, Mrs. Susan Dixon, wife of Jas. Dixon, aged 73 years.

Mrs. Dixon was born in Clark county, Indiana, in 1806; married at the age of 18; raised a family of 12 children, 10 of whom are now living. She crossed the plains to Oregon with her husband in the memorable emigration of 1852, and soon after settled in the Umpqua valley, where she resided up to the time of her death. Mrs. Dixon was associated with that early class of Oregon pioneers who braved the hardships and dangers of a journey overland, and whose loss will be deeply felt by the extensive friendly circle in which she moved.

Her husband, 79 years of age, survives her.

PERFECT SAFETY IN SHEEP DIPPING.

McDOUGALL'S PATENT NON-POISONOUS SHEEP DIP, now in more general use in Great Britain, the Colonies and the Cape of Good Hope, than any other Dressing for sheep. Has proved itself by far the best in existence.

It destroys Vermin, CURES SCAB, Waterproofs the fleece (by preserving and adding to the natural "Yolk"), improves and greatly increases the growth of Wool, and is much cheaper than any other Dressing in the market. Agents for the Pacific Coast,

SATURDAY MORNING, MARCH 23, 1878

CITY.

FAILED TO AGREE—JURY DISCHARGED.—Judge Deady delivered the charge to the jury in the case of United States vs W. H. N. Stiles, indicted for the crime of perjury, and the case was submitted Thursday afternoon about 3 o'clock. The jury retired for deliberation, but failed to agree on a verdict. Yesterday morning at 9 o'clock, not having agreed upon a verdict, the jury came into court, and was discharged by the judge. United States District Attorney Mallory moved a *nolle prosequi*, and the prisoner was forthwith discharged from custody. Thus ends the much talked of and long pending case of the government against Stiles. The attempt to convict Stiles has proved a rather expensive experiment on the part of the government. The witness fees in the first trial alone aggregated the sum of $609 50. This included Senator Grover's fees, who came from Washington in obedience to a summons at an expense of $473. On the last trial the witness fees amounted to $251 60; total sum expended for witnesses, $861 10. Stiles has been confined in the county jail since last August, boarding at the expense of Uncle Sam. The cost of keeping the prisoner, together with all the other expenses attending the trials—marshals' fees, clerks' fees, etc., will probably swell the whole amount to the vicinity of $2,000. The jury in the last case stood 8 for acquittal and 4 for conviction.

TIDAL WAVE.—Brief allusion was made in yesterday's paper to a heavy roller which had recently visited Cape Flattery and swept everything before it. Col. Wilson is in receipt of a letter from the keeper of the light station at the cape, giving an account of the "tidal wave." The letter is dated March 9th. We are permitted to make the following extract: "Last Thursday, March 7th, during a gale, the sea swept the entire beach on this island, carrying off the boat house at this station, together with the boat and all the fixtures. At 3 o'clock P. M. one of the assistants went on the beach to secure a few pieces of lumber, when the sea came in like a tidal wave, sweeping the beach at least twelve feet higher than ever noticed before. It took the assistant off twice and back before he could get out of the water. Some one gave the alarm, and he was but only a few feet from the water, nearly exhausted. The canoe was moved about 40 feet before the lighthouse keeper reached the beach. Axes were procured to cut the boards off the boat house in order to save the boat, but before a single one could be got off the alarm was given again, and the men scarcely had time to get out of the surf when the sea rolled in again and swept the house clear off the beach. The next day the men recovered the winch and oars. The balance is a total loss.

OPEN TEMPERANCE SOCIETY.—A very large audience was, as usual, attracted to the meeting of the Open Temperance Society on last Saturday evening at the hall of the Young Men's Christian Association, and the exercises were of an unusually interesting character. A stirring and very effective address was delivered by Rev. J. A. Cruzan, of the First Congregational church, and eloquent and telling remarks were made by Rev. Mr. Stubbs, of the Seamen's Bethel. A large number of new names were added to the pledge. At the meeting this evening several new features will be added to the exercises and, as usual, good speeches will be made, splendid vocal and instrumental music will be furnished, and no efforts will be spared to make the occasion a profitable and agreeable one to all who may attend. Exercises commence promptly at 7:30.

SENT TO THE PENITENTIARY.—Thus far during the present term of the state circuit court the following persons have been indicted, tried, convicted and sentenced to the penitentiary: L. Riley, 4 years; Thomas Gray, 1 year; John Smith, alias Jones, 5 years; John Coleman, alias Ah Jack, 1 year; J. P. Ward, 4 years; James Clark, 2 years; Thomas Har[illegible], 1 year; Ah Hing, 1 year; Frank O'Connor, 2 years; Charles Williams, 2 years; Yan Sew, 5 years; Ah Jack, 6 months; Ah Gong, 6 months; Wm. Hughes, 2 years; Wm. Palmer, 2 years; John Abrahams, 6 months; John McCarty, 4 years; John Abrams, 1 year; John Barnes, 1 year; James King, 1 year; Charles Barnard, 1 year. A. Brown and —— Whipple, 1 year each, were sent up by the U. S. district court.

ST. LUKE'S CHURCH.—The *Churchman*, speaking of St. Luke's church, Vancouver, says: "A gallery is being put into the church which will extend across the entire front end of the building. The ceiling under the gallery is about eight feet above the floor, just clearing the front doors, and obscuring the arch above the doors. It projects eight feet into the church, the front being supported by two columns. The plans for the gallery were drawn by Mr. Talbot of Portland, and the style of architecture is in keeping with the rest of the church. The building of this gallery became a necessity to accommodate the large number who have recently joined the choir. Those connected with the choir raised the money among themselves and their friends, for this work.

PUBLIC FOUNTAIN.—In the winter time no one misses in Portland the public drinking fountains which are to be found in almost every other city in the union, but in the hot and dusty days of summer strangers on our streets may often feel the need of such institutions. Seeing this fact, a society called the Christian Union, connected with the Unitarian church, made application to the Portland Water Company, and to Mr. Woodward, lessee of the premises, for permission to erect such a fountain on the north side of the Odd Fellows' Temple on Alder street. Such permission was kindly given by Mr. Woodward and the company, and in addition the latter generously agreed to furnish the water free as long as the fountain is kept in repair.

REMANDED FOR SENTENCE.—On the 20th of last November three Chinese courtezans named China Susie, Mollie and Nellie, were arrested by the police for keeping a bawdy house on Yamhill street, between Third and Fourth. They were tried in police court on the charge, found guilty, and each sentenced to pay a fine of $50. They appealed the case to the state circuit court, and giving bonds, were discharged. The case came up before Judge Shattuck, who affirmed the decision of the lower court and remanded the defendants for sentence. They were brought to the city jail yesterday, and refusing to pay the fine imposed, were committed each for the term of 20 days.

CAPT. JACK.—Mr. VanHorn, the advance agent for Capt. Jack's company, returned to the city last evening. He states that the company has appeared at Salem, Eugene City and Albany. The business has been quite good—exceeding their anticipations—and the management feel greatly encouraged over the gratifying result. The company appeared two nights at Albany, and by general request will remain there for the rest of the week. Mr. Van Horn will start for the Sound this morning, and will be followed by the company next Tuesday. The company will probably be absent from the city, in visiting the Sound ports and Victoria, about three weeks.

HER CONDITION.—The condition of Mrs. Smalden's daughter Mary remains unchanged, and the young woman lies at the hospital in a very critical state. A police officer who visited that institution yesterday afternoon reports that there has been no noticeable improvement in the unfortunate woman's condition for several days. The physician states that the crisis will not arrive until next Tuesday, the ninth day since the injuries were received. After that time a decided change for the better or worse will come.

STATE CIRCUIT COURT.—After the case of State vs. Moy Luke has been disposed of, which will probably consume a portion of to-day, the state circuit court will adjourn until one week from next Monday—April 1st. The jurors have not yet been discharged from further attendance on the court. We understand that a number of cases remain on the docket which will require the services of jurors.

MAILS TO CLOSE.—Mails via steamship *Idaho* will close at 6 A. M. 24th inst. Register mail will close at 4 P. M. 23d inst. The public will bear this in mind and act accordingly.

The jury in the Stiles case when the ballot was first cast stood six for conviction and six for acquittal. They stood this from 3 P. M. to 9 P. M. Two jurors then went over in favor of the defendant, and the jury stood 8 to 4 until discharged by the court.

The district court of Vancouver has been in session since Monday. The time has been mostly occupied in making and arguing motions. Several cases have been put over to next term, but none have yet been finally disposed of. Several attorneys from this city are in attendance.

The Presbyterian Sociable.—It is not often this denomination indulge in sociables, though it is always demonstrated that when they do take place, they are a complete success. Last night was no exception to the rule—in fact it may be regarded as the most successful ever held. The feature of the evening was the introduction of Uncle Abijah Bimblecomb, dressed in appropriate costume of the time of our centennial fathers, assisted by a quartette of singers also appropriately dressed. Their vocal and instrumental renditions were perfect, creating immense merriment, particularly the song "Cousin Jedediah," which was repeated late in the evening by general desire. The role of Uncle Abijah was sustained by Mr. J. K. Gill, and his quartette consisted of Mrs. Holbrook, Mrs. Withington, Mr. A. H. Morgan and Prof. Warren. Better representatives could not have been chosen. The basement was crowded, and all appeared to take a most lively interest in the various attractions. Financially as well as socially the sociable may be pronounced an unparalleled success. It is hoped this entertainment may be repeated at an early date. Compliments received.

AMERICAN BIBLE SOCIETY.

The stated meeting of the board of managers was held at the Bible House, Astor Place, on Thursday, March 7th, at half-past three o'clock, P. M., Wm. H. Allen, Esq., LL.D., president in the chair.

Secretary McLean read the sixty-seventh Psalm, and offered prayer.

Two new auxiliary Bible societies were recognized; one in Iowa and one in Wisconsin.

A portrait of the late James Suydam, Esq. for many years a manager and vice president of the society, was received as the gift of the Rev. J. A. H. Cornell, D.D., and ordered to be placed on the walls of the Managers' room, with the portraits of other distinguished benefactors of the society.

The resignation of the Rev. Dr. Holdich as corresponding secretary was accepted, and a committee was appointed to draft a minute expressing the feelings of the managers at parting with one so long associated with them in this society. The Rev. Albert [illegible] Hunt, D.D., of Brooklyn, was elected to fill the vacancy.

A communication was received from Richmond, Va., announcing that great satisfaction was felt at the decision of the board to hold the next anniversary of the society in that city, and that St. Paul's Protestant Episcopal church had been secured for the occasion.

Letters were also presented from [illegible] H. Prince, Esq., of St. Petersburg, announcing the completion of the Reval-Esthonian Bible and sending a specimen copy for the library; from Rev. D. C. Greene, of Japan, reporting his editorial labors, and speaking of a proposed convention of missionaries to arrange for the translation of the Old Testament into Japanese; from the Rev. H. N. Barnum of Harpoot, expressing the thanks of his church for all that the Bible Society has done for the Armenian nation; from the Rev. E. M. Wherry of Lodiana, Rev. M. N. Hutchinson of Mexico, Rev. J. B. McDougall of Florence, Rev. F. Vermeil of Paris, Rev. Thomas L. Gulick of Zaragossa, giving reports of the last year's work of Bible distribution; also from the Society's foreign agents, Mr. Blackford being at Petropolis on the 5th of January, Dr. Gulick at Nanking on the 11th of January, and at Kobe on the 5th of February, Dr. Bliss at Constantinople on the 15th of February, and Mr. Milne at Montevideo, Dec. 29th.

In answer to various applications from auxiliary societies, churches, individuals and foreign missions, appropriations of money were made to the amount of $1,480, and grants of Scriptures amounting to about 2,400 copies, including nine volumes in raised letter for the blind.

The receipts for February were $37,532; copies of Scriptures issued, 44,840.

DR. C. M. WOOD, MAGNETIC PHYSICIAN.

Another Wonderful Case Cured by Animal Magnetism.

I wish to make the following statement in justice to Dr. C. M. Wood, and suffering humanity. On Nov. 25, 1875, I had the misfortune to be shot in the face by a pistol ball, and on Dec. 2d my jaws became set so that I could not open them but one-half an inch, and at no time could I open them further than one-half of an inch. Physicians and surgeons all told me I could not regain the natural use of my jaws. I spent $500 in the hope of getting relief, all to no effect. Three weeks ago I attended Dr. C. M. Wood's lecture in Reed's opera house, and was operated upon by him in presence of the audience, and cured in five minutes by a few passes of his hand, so that my jaws are well and I can open them as wide as I ever could, free from pain.

A Cure in Five Minutes.

SALEM, April 22, 1876.

To the Citizens of Salem and vicinity: Being well known in this country, I am desirous of making known a wonderful cure which I received at the hands of Dr. C. M. Wood. Four years ago I had my hip joint dislocated, since which time I have suffered untold misery night and day, from a contraction of the cords and muscles. I have never been free from it until three weeks ago, when I attended Dr. Wood's first lecture in Reed's Opera House, and was treated and cured by him in five minutes, and am happy to state that I have been perfectly free from the pain from that time to the present.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature,—rain, wind and sunshine often intermingled in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us, by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your house for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages Pneumonia, Severe Coughs Croup or any diseases of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c; regular size, 75c.

FINANCE AND COMMERCE.

Domestic Produce.

FRIDAY EVENING, March 22, 1878.

But few changes have occurred in this department of trade during the past week, although business has shown some increase under the impetus of good weather. The offerings of wheat have been very light and but few buyers are in the market at all, and there is little doing, but little in the way of purchases, the views of holders being above the figures justified by the markets abroad. There are three vessels now here to load with wheat and flour, the Jeannie Landles, Hertfordshire and Blenheim, but their cargoes are reported as nearly all in sight, the parties loading them expecting to be able to pick up enough here and there to finish what is lacking. Hence the general market is but little agitated by the fact that two of these vessels have just been chartered. The condition of the wheat market abroad has recently been one of such uncertainty that, though local supplies have not been large, they have been ample to meet the very light requirement under the existing circumstances. Very natural, and wisely too, there has been but little general disposition to speculate under such treacherous auspices, and those who were so inclined and so speculated, did so to a limited extent but quite sufficient to satisfy them. The surplus wheat for export now on the coast is now a matter of considerable conjecture. Hasch & Barclay's circular, issued at San Francisco, puts it at 15,000 to 20,000 tons for California, and 10,000 to 15,000 for Oregon. Flour is in more liberal receipt than wheat, and all the state mills which have a [illegible] are keeping up their stocks. Transactions are of considerable volume, and at the quotations given are rather in buyers' favor.

Oats are still in light receipt, buyers being backward in operating beyond requirements of the local trade and [illegible] orders at hand. This cereal is very uncertain at this time in the season, and except the best lots for milling or seed purposes, the market is unreliable. All feed, hay, etc., has not been so active, and but for the fact that a few parties handle the supplies and are able to control the market to a very important extent, a decline of ground feed would probably take place. Hay, at quotations given, is difficult to place in large lots, the mild winter having left a larger surplus in the country than usual.

Provisions are in fair supply and the movement [illegible] than before, but still the demand is fully met by stocks on hand and rates, though firm, show but little tendency to appreciate. Dairy products, especially butter of inferior quality, are plentiful and some lots are very difficult to dispose of at any price. For eggs there is a good enquiry for the local trade which has brought forward large supplies during the season of Lent, but shipments are discouraged by the San Francisco prices and buyers for export will only pay about 18c, while fresh lots for home consumption are wanted at 15c [illegible].

Potatoes are still coming forward quite freely and [illegible] at 90c and for very choice lots $1 a [illegible]. Hides, pelts, etc., are dull and prices [illegible], the outlook for the spring trade in this line as well as in furs being rather discouraging. The opening of the spring trade in wool, as [illegible] in our advices from the east, presents no very [illegible] prospects, although there is yet time [illegible] for the better before the coming clip of [illegible] will begin to come forward.

GEO. E. COLE, P. M.

[illegible] M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

[illegible] Diseases

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast, but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions, and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door, Room No. 7, Corbett's Block, over O'Connor's Store, corner of Front and Washington streets.
